Toma Milićević

Full-Stack Web Developer (frontend focus) · Master's student in Computer Science

tomatomamilicevic@gmail.com · +385 92 419 2060 · github.com/TomaMili · linkedin.com/in/toma-milićević-2057a7268
Zagreb, Croatia · Open to roles in Zagreb or remote

PROFILE

Frontend-focused full-stack developer and Computer Science master's student at the Zagreb University of Applied Sciences (TVZ). As a freelancer I build complete web solutions for real clients from the ground up: brand and UI design, Next.js and Supabase development, admin panels, SEO and deployment. I also co-founded Cineo, an AI-powered movie library that reached the Mc² finals and went through the BIRD Incubator. Looking for a developer role in Zagreb or remote where I can ship production code and keep growing.

SKILLS

Frontend	React, Next.js, TypeScript, JavaScript, Redux, Tailwind CSS, HTML5, CSS3
Backend & data	Node.js, Supabase, PostgreSQL / SQL, REST APIs, TMDB API
Delivery	Git and GitHub, Vercel, technical and local SEO, multilingual sites (HR/EN), responsive design
Design	Figma, Photoshop, Illustrator, InDesign, Lightroom, Premiere Pro; branding and print production
Basic knowledge	Python, C, C++, PHP

EXPERIENCE

Freelance Web Developer Zagreb / remote — 2026 – Present

End-to-end web solutions for small businesses and associations, from the first brief to launch.

Broćanska zajednica Zagreb · brocanskazajednica.hr — Brand, social media, full-stack

- Created the full brand identity and built the association's platform from scratch in Next.js and Supabase: interactive map of the Brotnjo villages, digital memory archive, photo gallery, news, membership sign-up and newsletter.
- Run the association's Instagram and Facebook content, including the promotion of its annual gala evening (Broćanska večer 2026, The Westin Zagreb).

Rent a car Mapeh, Čitluk and Međugorje · rentacar-medjugorje.eu — Full redesign

- Redesigned and rebuilt the company website: bilingual (HR/EN) Next.js site with a vehicle catalog, a page and reservation inquiry form for every vehicle, an admin panel and local SEO.

AS Premium Rent-a-Car, Ljubuški · aspremiumrent.com — Full website

- Built the complete website from the ground up to replace the client's legacy WordPress site: bilingual vehicle catalog, inquiry-based booking flow, admin panel and local SEO.

Typical stack: Next.js, React, TypeScript, Tailwind CSS, Supabase, Vercel

Cineo cineoai.com · Co-founder and full-stack developer — Mar 2025 – Present

AI-powered movie discovery platform and personal film library, co-founded with two colleagues.

- Built with Next.js, React, TypeScript, Tailwind CSS, Supabase and the TMDB API; deployed on Vercel.
- Mc² competition finalist (2025) under mentorship from Netgen, which earned a place in the BIRD Incubator AI startup programme (Oct 2025 – Apr 2026).
- Launched the public beta to the waitlist (emails via Resend and Supabase) and worked on SEO and search visibility.
